RUNWAY CRACK SEAL SPECIFICATION

SCOPE: The work consists of crack sealing a minimum of 25,000 linear feet (LF) on Runway 1/19. The 25,000 LF is located at various locations on the runway. All work must be completed in compliance with FAA Advisory Circular No. 150/5380-6C. Pending bid price, additional quantities may be added.

THE ATTENTION OF THE BIDDERS is called to the fact that safety and security of the Airport is of prime concern at all times, and this Contract is subject to restrictions to this end as set out by the Contract Documents. Bidder shall use an air compressor with an operable oil and water trap to clean all cracks with compressed hot air. All work will be accomplished during daylight hours.

Act 150 of 1965, Arkansas Statutes, states that a Contractor must be licensed by the State Licensing Board of Contractors, or have an application for license on file with the Licensing Board, before he may submit a bid for work when the cost thereof is Twenty Thousand Dollars (\$20,000.00) or more.

SAFETY: It shall be the responsibility of the Contractor to provide an experienced Job Superintendent on site to supervise the operation.

BID AWARD:

The bidder with the lowest per linear foot proposal will be announced at the bid opening. This announcement does not guaranty bid award. The project will not be awarded for contract until it is determined that the bidder and any or all sub-contractors can meet or exceed all specifications and requirements of the airport. A contract will also not be in place until approved by the Fort Smith Airport Commission. Total LF may be increased, with approval of Owner and Bidder, pending price per LF.

PROJECT TIMELINE:

This project shall be completed and billed by December 31, 2021.

Site Visit: Site visits may be scheduled by contacting Tim Thomas, Airfield Maintenance Supervisor, at 479-650-3309.

The Fort Smith Regional Airport reserves the right to waive any formalities and the right to reject any or all bids.
